Golf Cart Battery Chargers-Automatic With Built In Maintainer

Lithium Chargers Now Available

Schauer develops all our our battery chargers, including lithium, with you in mind. If your golf carts have Lithium batteries, then you need a lithium specific battery charger to keep them fully charged, maintained and in use.

Available Plugs:

Battery Charger Models:

Lead Acid: Flooded, AGM, Gel	
JAC2036H	36 VOLT - 20 AMP
JAC1742H	42 VOLT - 17 AMP
JAC1548H	48 VOLT - 15 AMP
JAC1372H	72 VOLT - 13 AMP
Lithium: Lithium Iron Phosphate (LiFePO4)	
JAC1548L	48 VOLT NOMINAL (57.6 VDC) - 15 AMP
JAC1372L	72 VOLTS NOMINAL (86.4 VDC) - 13 AMP

Custom Lithium settings available–Contact Schauer Chargers

Battery Charger Features:

Battery Types	Lead Acid: Flooded, AGM, Gel Lithium Iron Phosphate (LiFePO4)
Multi-Stage Charging	Constant current – Constant voltage. Lead Acid final maintenance mode for battery conditioning and storage
AC Input Voltage Autosensing	100 VAC – 265 VAC 50/60 Hz
AC Input Current	Max. 14 Amps
Protection	
• Short Circuit • Reverse Polarity • Voltage limited– will not overcharge battery • Over Temperature • Safety Time-Out	• Minimum low voltage turn on–16 volts are required in battery pack for charger to start charging • Cooling fan
LED Lights	• Upper LED 1: Red – AC Power • Lower LED 2: Bicolor Amber – charging Green Full charge/Float standby mode • Both LEDS flashing: Safety Time-Out (~15 hrs.)
Physical	• 7" W x 8" L x 6" H • 12 lbs. • Mounting Flanges/Handle • 8 Ft. DC output cable with Anderson SB50 Grey connector • Golf Cart charge plug adapter included (Specify)
Energy efficient (UEC, CEC Compliant)	
Warranty	2 Years
