
- **Automotive Chargers**
  Battery chargers for automotive, truck, motorcycle type batteries.

- **Mobile Equipment Electronic Chargers**
  High frequency switching electronic automatic battery chargers / commercial, industrial service. Suitable for intermittent load float charging - that is battery systems connected to a current load occurring at irregular intervals, not continuous or steady.

- **Power Equipment Adapters**
  Charging connector plugs for golf, industrial & commercial usage.

- **All Schauer Battery Chargers Come With A Two Year Limited Warranty.**

A Company History And Profile Of The Brookwood Group Inc.

As part of its acquisition of the Schauer brand, the Brookwood Group Inc. consolidated the merger of several companies in the battery charger, transformer, power supply and electronics business. Located in Cincinnati, Ohio the company’s roots go back over one hundred years, with 2007 marking the company’s 100-year anniversary.

In the early 1930’s manufacturing concentrated on DC power supplies for independent telephone companies. Over time a variety of DC power supplies were developed as utilities phased out the distribution of DC services. Our power supplies have provided power to such resources as Western Union lines, the ITT international long lines and the tole board of the New York Stock exchange.

Always dedicated to innovation, in 1947 the company had the original patent on battery chargers using selenium rectifiers replacing glass envelope tubes. We also made copper oxide rectifiers and as technology progressed, manufactured rectifiers and other devices of silicon and germanium.

Over the years this dedication to innovation has lead to many new ideas and improvements to the battery charger category. We were the first to introduce improvements in switches, metering and rectifiers that are still in use today. We were also the first to develop automatic chargers and made the first practical high frequency switching chargers for lead acid batteries.

Our chargers and power supplies have found their way all around the world in such locations as; North Pole research stations; UN peace keeping missions in Africa and Asia; California telemetry units for water supply control; railroad crossings; subway powering logic control rooms and even in Japan for Japanese bass fishermen.

The Schauer line of battery chargers supports the following categories; automotive, commercial equipment, alternative energy, and mobile equipment electronic chargers. In supporting our dedication to quality all of our Schauer battery chargers come with a two-year limited warranty.
Automotive Chargers

Fully Automatic One Amp Battery Charger

- One amp fully automatic battery charger for 6/12 volt batteries.
- Indicator lights: red - power on, yellow - charging, green - charged switched to float mode.
- Fully automatic, can be left on the battery indefinitely.
- Easily keeps batteries charged in stored vehicles.
- Ideal for cars, motorcycles, riding mowers, snowmobiles, etc.
- Overload protection.
- Charges, maintains, & conditions batteries.
- Reverse polarity protected. Requires minimum of 5 volts from battery to start charger.
- For any type lead acid battery, including conventional, maintenance free, deep cycle, gelled-type, valve regulated batteries.
- Molded plastic case won’t rust.
- Ring terminals (3/8” hole) on 18” leads for direct battery connection.
- Convenient 6” grounded AC cordset for connection to AC extension cord.
- Dimensions: 3.94” x 2.56” x 1.42”.
- UPC #: 0 7894207516 5.
- Case lot of 20 weighs 29.8 lbs.

Low Resistance Cigar Lighter Plug

- Metal plug for charging batteries through cigar lighter receptacle (max 10 amp rate). Replacement for charger’s alligator clips. Metal plug has adjustable ears for making low resistance contact with receptacle. Useful for higher current applications that cause plastic plugs to overheat. Use as 12 volt DC input connector for spotlights, compressors, radios, telephones, etc. in vehicles.
- Use as low voltage DC connector with auxiliary equipment in non-automotive applications. Case lot of 12 weighs 1.6 lbs.

- Fully automatic, can be left on the battery indefinitely.
- For any type lead acid battery, including conventional, maintenance free, deep cycle, gelled-type, valve regulated batteries.
- Molded plastic case won’t rust.
- Ring terminals (3/8" hole) on 18" leads for direct battery connection.
- Convenient 6" grounded AC cordset for connection to AC extension cord.
- Dimensions: 4.75"W x 3.5”H x 1.75”D.
- Case lot of 20 weighs 50 lbs.

Case lot of 20 weighs 29.8 lbs.

Automotive Chargers

**Automatic Multi Stage Smart Battery Charger**

Automotive multi stage smart battery chargers. For all vehicle & deep cycle 12 volt batteries. Microprocessor controlled high frequency switching mode.

**Multi-Stage Charging:**
- Soft start, gentle ramp-up, then bulk charge, at a constant current rate, then absorption charge, at a constant voltage, then maintenance stage, float pulse charging prolongs battery life.
- Quick change cord-sets, battery clips or ring terminals.
- Selectable battery type: WET, GEL, AGM, Calcium Battery rejuvenation (desulfation) function.
- Ideal for winter battery maintenance.
- Heavy-duty cables.
- Protected for: short circuit; reverse polarity; and overload.
- Internal thermal overload protection.
- Battery thermal run away protection.
- Packaged in plastic clam shell with graphic usage icons.
- UL/cUL/BC listed.

**CM6A Dimensions:** 7.44" L x 3.86" W x 2.01" H.

**CM12A Dimensions:** 8.54" L x 4.06" W x 2.28" H.

Chargers available for other currents and voltages, contact factory.

**CM6A**
- 1/4/6 AMPS
- 12 VOLTS
- Case lot of 20 weighs 47.3 lbs.
- UPC #: 0 7894207517 2

**CM12A**
- 1/8/12 AMPS
- 12 VOLTS
- Case lot of 12 weighs 36.2 lbs.
- UPC #: 0 7894207518 9

**JAC2512, JAC2024H**

Electronic Charger & Ground Power Supplies With Connectors For Cessna & Piper

- Charge control: constant current charge to a constant voltage, then to a float standby.
- Current limiting.
- Fully automatic: 3 stage charger can be left on the battery in maintaining/float mode.
- Can be set for any type lead acid battery, including conventional, maintenance free, deep cycle, gelled-type, valve regulated batteries.
- Cyclic Voltage: Flooded 2.47 volts/cell; Gel & AGM 2.4 volts/cell. May be preset to customer’s specification for battery type.
- Low voltage start: will start charging a deeply discharged battery with low terminal voltage.
- Reverse polarity and short circuit proof.
- Aluminum case.
- Red LED indicates AC power on, yellow LED indicates battery is charging, green LED indicates float mode.

**JAC2512**
- 25 AMPS
- 12 VOLTS
- 10" w x 7.5" h x 3" d
- 6.5 lbs.

**JAC2024H**
- 20 AMPS
- 24 VOLTS
- 10" w x 7.5" h x 3" d
- 6.5 lbs.

NOTE: Chargers available for other currents and voltages, contact factory.
Fully Automatic World-Wide Universal Input Electronic Charger

Intelligent chargers follow battery impedance to end of charge cycle for all battery types. Fully automatic. Red LED indicates AC power on, yellow LED indicates battery is charging, green LED indicates float mode.

- Charge control: constant current charge to a constant finishing voltage then to a float standby.
- Current limiting.
- Fully automatic 3 stage charger can be left on the battery indefinitely.
- Can be set for any type lead acid battery, including conventional, maintenance free, deep cycle, gelled-type, valve regulated batteries.
- Cyclic Voltage: Flooded 2.47 volts/cell; Gel & AGM 2.4 volts/cell. May be preset to customer’s specification for battery type.
- Continuous - 100% duty cycle.
- Low voltage start: will start a deeply discharged battery with low terminal voltage.
- Reverse polarity and short circuit proof.
- Aluminum case.
- Not intended for use as a DC power supply.
- AC Input 115/230 volts, 50 or 60Hz Input voltage selection by switch.

MODEL JAC0336MAN, JAC0348MAN

Fully Automatic 36 or 48 volt Battery Maintainer

- Extend the life of your batteries with this battery maintainer. Prevents battery sulfation during equipment storage.
- Maintainer for 36-volt or 48-volt battery systems. Use on 10 to 300-amp hour lead acid batteries, typical of golf carts, industrial scrubbers, etc.
- Current limiting.
- Fully automatic maintainer can be left on the battery in maintaining/float mode.
- Red LED indicates AC power on. Yellow maintaining at 2.5 amp. Green maintaining at 1 amp or less.
- Can be used for any type lead acid battery, including conventional, maintenance free, deep cycle, gelled-type, valve regulated batteries.
- Reverse polarity and short circuit proof.
- AC cordset length, 6 feet. DC cordset length, 4 feet with battery clips.
- Aluminum case.
- AC Input 100-240 volts, 50 or 60Hz Input voltage autosensed.

JAC0336MAN  2.5 AMPS  36 VOLTS  6.5”w x 3.5”d x 1.8”h  1.8 lbs.
JAC0348MAN  2.5 AMPS  48 VOLTS  6.5”w x 3.5”d x 1.8”h  1.8 lbs.

Low Resistance
Cigar Lighter Plug

Metal plug for charging batteries through cigar lighter receptacle (max 10 amp rate). Replacement for charger’s alligator clips. Metal plug has adjustable ears for making low resistance contact with receptacle. Useful for higher current applications that cause plastic plugs to overheat. Use as 12 volt DC input connector for spotlights, compressors, radios, telephones, etc. in vehicles.

Use as low voltage DC connector with auxiliary equipment in non-automotive applications. Case lot of 12 weighs 1.6 lbs.
As part of its acquisition of the Schauer brand, the Brookwood Group Inc. consolidated the merger of several companies in the battery charger, transformer, power supply and electronics business. Located in Cincinnati, Ohio the company’s roots go back over one hundred years, with 2007 marking the company’s 100-year anniversary.

In the early 1930’s manufacturing concentrated on DC power supplies for independent telephone companies. Over time a variety of DC power supplies were developed as utilities phased out the distribution of DC services. Our power supplies have provided power to such resources as Western Union lines, the ITT international long lines and the tote board of the New York Stock exchange.

Always dedicated to innovation, in 1947 the company had the original patent on battery chargers using selenium rectifiers replacing glass envelope tubes. We also made copper oxide rectifiers and as technology progressed, manufactured rectifiers and other devices of silicon and germanium.

Over the years this dedication to innovation has lead to many new ideas and improvements to the battery charger category. We were the first to introduce improvements in switches, metering and rectifiers that are still in use today. We were also the first to develop automatic chargers and made the first practical high frequency switching chargers for lead acid batteries.

Our chargers and power supplies have found their way all around the world in such locations as: North Pole research stations; UN peace keeping missions in Africa and Asia; California telemetry units for water supply control; railroad crossings; subway powering logic control rooms and even in Japan for Japanese bass fishermen. The Schauer line of battery chargers supports the following categories; automotive, commercial equipment, alternative energy, and mobile equipment electronic chargers. In supporting our dedication to quality all of our Schauer battery chargers come with a two-year limited warranty.

- **Automotive Chargers**
  Battery chargers for automotive, truck, motorcycle type batteries.

- **Mobile Equipment Electronic Chargers**
  High frequency switching electronic automatic battery chargers / commercial, industrial service.
  Suitable for intermittent load float charging - that is battery systems connected to a current load occurring at irregular intervals, not continuous or steady.

- **Power Equipment Adapters**
  Charging connector plugs for golf, industrial & commercial usage.

- **All Schauer Battery Chargers Come With A Two Year Limited Warranty.**
