FULLY AUTOMATIC
CURRENT LIMITING CHARGER

CURRENT LIMIT ON

FLOAT MODE

Schauer
3210 Wasson Road
Cincinnati, Ohio 45209

Schauer is a trademark of the Brookwood Group Inc.

A Company History And Profile Of The Brookwood Group Inc.

As part of it's acquisition of the **Schauer** brand, **the Brookwood Group Inc.**, consolidated the merger of several companies in the battery charger, transformer, power supply and electronics business. Located in Cincinnati, Ohio the company's roots go back over one hundred years, with 2007 marking the company's 100-year anniversary.

In the early 1930's manufacturing concentrated on DC power supplies for independent telephone companies. Over time a variety of DC power supplies were developed as utilities phased out the distribution of DC services. Our power supplies have provided power to such resources as Western Union lines, the ITT international long lines and the tote board of the New York Stock exchange.

Always dedicated to innovation, in 1947 the company had the original patent on battery chargers using selenium rectifiers replacing glass envelope tubes. We also made copper oxide rectifiers and as technology progressed, manufactured rectifiers and other devices of silicon and germanium.

Over the years this dedication to innovation has lead to many new ideas and improvements to the battery charger category. We were the first to introduce improvements in switches, metering and rectifiers that are still in use today. We were also the first to develop automatic chargers and made the first practical high frequency switching chargers for lead acid batteries.

Our chargers and power supplies have found their way all around the world in such locations as; North Pole research stations; UN peace keeping missions in Africa and Asia; California telemetry units for water supply control; railroad crossings; subway powering logic control rooms and even in Japan for Japanese bass fishermen.

The **Schauer** line of battery chargers supports the following categories; automotive, commercial equipment, alternative energy, and mobile equipment electronic chargers. In supporting our dedication to quality all of our **Schauer** battery chargers come with a two-year limited warranty.

MODEL CM1A

Fully Automatic One
Amp Battery Charger

Schauer® Charge Master™

Automatic Battery Charger

- One amp fully automatic battery charger for 6/12 volt batteries.
- Indicator lights:
red - power on.
yellow - charging.
green - charged switched to float mode.
- Fully automatic, can be left on the battery indefinitely.
- Easily keeps batteries charged in stored vehicles.
- Ideal for cars, motorcycles, riding mowers, snowmobiles, etc.
- Overload protection.
- Charges, maintains, & conditions batteries.
- Reverse polarity protected. Requires minimum of 5 volts from battery to start charger.
- For any type lead acid battery, including conventional, maintenance free, deep cycle, gelled-type, valve regulated batteries.
- Molded plastic case plugs into outlet.
- Ten foot long AC & DC cordset includes quick change battery clips and ring terminals.
- UL/cUL/BC listed.

- Dimensions: 3.94"L x 2.56"W x 1.42"H.
- UPC #: 0 7894207516 5.
- Case lot of 20 weighs 29.8 lbs.
